Dear Jenna

Re South Lakeland Core Strategy Development Plan Document Public Examination - Inspector's Possible Changes Consultation

Thank you for sending me details of the proposed changes being considered by Mr Goodman.

Ref No: IPC 3 - I am not clear what impact the reduction in numbers of houses proposed for Ulverston will have in the villages of South Lakeland. What are the numbers and how are they to be redistributed to Kendal and/or other key and local service centres?

Ref No: IPC 6 - I was pleased to read in Annex B 3.43a that "Encouragement of sustainable transport, including greater use of walking, cycling and public transport should be continued as a priority in future decisions regarding the spatial strategy for Kendal and the Allocation of Land DPD."

Ref No: IPC 7 -I was also pleased to see Annex C 8.4 that "In assessing potential strategic employment sites these will where possible be accessible, or made accessible, by walking, cycling and public transport from relevant principal, key and local service centres in the vicinity."

Yours sincerely

Ralph Sutton
