1. Executive Summary

- 1.1 This document is the draft 2018 Housing Land Annual Position Statement for South Lakeland District Council outside the National Parks, at 31 March 2018. It provides an assessment of overall housing land supply and the 5 year housing land position against the latest evidence of objectively assessed housing need in the Council's [Strategic Housing Market Assessment](#) (SHMA) published in October 2017. This represents the Council's up-to-date position statement on 5 year housing land supply.
- 1.2 It also provides the Council's Housing Delivery Record in accordance with the Government's Housing Delivery Test proposals as set out in its [March 2018 consultation](#).

Five Year Land Supply Calculation

- 1.3 The Council's five year housing land supply position at 31 March 2018 is presented below.

Table 1: South Lakeland 5 Year Supply Position

<i>Five Year Housing Land Supply Calculation</i>		Calculation	Figure
a)	Housing Requirement 1 April 2016 - 31 March 2036	290 x 20	5800
b)	Target Completions 1 April 2016 - 31 March 2018	290 x 2	580
c)	Net completions 1 April 2016 - 31 March 2018	245+291	536
d)	Current undersupply to date	b - c	44
e)	5 year requirement	290 x 5	1450
f)	5 year requirement + undersupply	e + d	1494
g)	5 year requirement + 20%	f x 1.2	1793
h)	Annualised requirement over next 5 years	g / 5	359
i)	Deliverable land supply: <i>Sites 10+ under construction (315 units)</i> <i>Sites 10+ with full permission (404 units)</i> <i>Sites 10+ with outline permission (82 units)</i> <i>Deliverable Section 106 Sites (445 units)</i> <i>Small permitted sites <10 units (389 units)</i> <i>Additional windfall allowance (306 units)</i> <i>Unconsented deliverable allocations (864 units)</i>		2805
j)	Land supply in years	i / h	7.81

The Council can therefore demonstrate it has a land supply of **7.81 years**.

Housing Delivery Record

- 1.4 The Housing Delivery Test as proposed by the Government in its March 2018 consultation proposes the following measure for housing delivery:

$$\text{Housing Delivery Test (\%)} = \frac{\text{Total net homes delivered over three year period}}{\text{Total number of homes required over three year period}}$$

- 1.5 For the South Lakeland planning authority area the proposed measure results in the following calculation:

$$\frac{906}{980} = 92\%$$

- 1.6 This calculation is based upon the following evidence:

Table 2: Proposed Housing Delivery Test Calculation

Year	Housing Need/ Requirement	Net Completions	% delivery
2015/16	400	370	93%
2016/17	290	245	84%
2017/18	290	291	100%

- 1.7 The Core Strategy housing requirement has been used for the Housing Delivery Test for the monitoring year 2015-16. This requirement is however now out of date following the preparation of the district’s 2017 Strategic Housing Market Assessment. The full objective assessment of housing need (FOAN) for the plan period 2016-2036 contained within the SHMA now provides the district’s local housing need figure and has therefore been used for the housing delivery test calculation from 2016 onwards.

2. Introduction

Background

- 2.1 Local planning authorities are required by national planning policy to identify and annually update a supply of specific deliverable sites sufficient to provide five years' worth of housing against their local housing requirement.
- 2.2 This document is the draft 2018 Housing Land Annual Position Statement for South Lakeland district outside the National Parks, to a base date of 31 March 2018. It provides an assessment of the district's overall housing land supply, and the 5 year housing land position against the district's local housing need as contained in the Council's 2017 Strategic Housing Market Assessment (SHMA).
- 2.3 This statement has been prepared in accordance with current national planning policy and guidance and has also has regard to the Government's March 2018 consultation proposals for revised national planning policy and guidance, and the introduction of the housing delivery test. At the time of the publication of this statement the outcomes from the national consultation are awaited and the statement may be revised depending on its outcome.
- 2.4 The statement has been prepared based on permissions and completions information from the Council's planning application and building control software and engagement with developers, agents and landowners in early 2018 through a survey and follow up correspondence (see Appendix 5 for a copy of the letter and survey).
- 2.5 The assessment of housing land supply continues to include information within the extensions (August 2016) to the National Parks, as the District Council's planning policies continue to apply in these areas until replaced by updated National Park Local Plans.
- 2.6 The Council's Annual Monitoring Reports contain further information on a range of wider housing issues and can be downloaded from the Council's website at <https://tinyurl.com/y8pzrgod>.

Structure of this Statement

- 2.7 This document is divided into the following sections:
 - Section 2** is this **introduction** and provides an overview of **national and local policy** and the district's **local housing need**;
 - Section 3** explains **the Council's overall longer term housing land supply position** and how the Council is delivering a **5 year supply of land for new housing** to meet immediate needs.
- 2.8 The appendices contain more detailed information including a detailed schedule of sites that comprise the Council's five year land supply and information on their deliverability, a record of recent housing delivery in the district, a summary of assumptions used in this annual position statement and maps showing the planning authority area and main settlements.

National Planning Policy and Guidance

- 2.9 The National Planning Policy Framework (NPPF) published on 27 March 2012 requires local planning authorities to ensure that their Local Plans meet the full, objectively assessed needs for market and affordable housing in their housing market area, as far as is consistent with the policies set out in the NPPF.
- 2.10 The NPPF requires planning authorities to identify and annually update a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirements. This should include a buffer of 5% to ensure competition and choice in the market for land, and where there has been a persistent record of under delivery of housing authorities should increase the buffer to 20%. The NPPF advises that local planning authorities may include an allowance for windfall sites in their five year supply if they have compelling evidence that these sites will continue to provide a reliable source of supply.
- 2.11 The NPPF defines 'deliverable' sites as sites that are available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years, and that development of the site is viable.
- 2.12 A draft revised National Planning Policy Framework, draft planning practice guidance and housing delivery test draft measurement rule book were published for consultation on 5 March 2018, with the consultation period closing on 10 May 2018. The finalised revised NPPF is awaited at the time of publication of this Annual Position Statement, but regard has been had to the draft consultation documents in its preparation.
- 2.13 The draft revised NPPF retains the requirement for local authorities to identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their requirement, but clarifies that where strategic plans are more than five years old the supply should be calculated against their local housing need using the new standard methodology.
- 2.14 The draft revised NPPF retains a requirement regarding buffers in the five year supply requirement to account for market choice and under delivery and proposes a buffer of 5% to ensure choice and competition in the market, 10% where the local authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, or 20% where there has been significant under delivery (below 85% of the housing requirement in accordance with the new Housing Delivery Test) of housing over the previous three years.
- 2.15 The draft revised NPPF and guidance propose that where delivery falls below 95% of the local planning authority's requirement over the previous three years the authority should prepare an action plan to detail the reasons and identify actions to address under delivery.
- 2.16 The draft revised NPPF proposes a slight amendment to the definition of 'deliverable' as follows:

“To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. Small sites, and sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (e.g. they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans). Sites with outline planning permission, permission in principle, allocated in the development plan or identified on a brownfield register should only be

considered deliverable where there is clear evidence that housing completions will begin on site within five years.”

- 2.17 The draft NPPF and planning practice guidance propose that for a local planning authority to be able to confirm its five year supply position it should ensure that its annual position statement has been prepared through engagement with developers and others who have an impact on delivery and that it has been considered by the Secretary of State and incorporates its recommendations where agreements could not be reached on the delivery of particular sites. The draft guidance proposes that local planning authorities should notify the Planning Inspectorate by the 1st April each year of its intention to confirm its five year land supply position through an annual position statement.
- 2.18 Confirmation of the draft NPPF, draft planning practice guidance and housing delivery rulebook, including the procedural requirements for notifying the Planning Inspectorate are awaited at the time of this annual position statement's publication. The Council has not therefore had the opportunity to date to notify the Planning Inspectorate that it intends to confirm its five year land position statement through this 2018 Annual Position Statement, however will do so at the first opportunity.

South Lakeland Local Plan

- 2.19 The South Lakeland Local Plan covers the period from 2003 to 2025 and comprises of four main documents - called Development Plan Documents (DPDs):
- Local Plan Part 1 – South Lakeland Core Strategy** (adopted in 2010) which sets out the overarching spatial strategy and general principles for the long term development of South Lakeland;
 - Local Plan Part 2 – Land Allocations** (adopted in 2013) which allocates land for development and protection;
 - Local Plan Part 3 – Development Management Policies DPD** (currently at examination) which sets out the criteria that new development has to meet and will replace a number of 'saved' Local Plan policies in the 1997 Local Plan;
 - Local Plan Part 4 – Arnsdale and Silverdale AONB DPD** (currently at examination) which is a Local Plan being prepared jointly with Lancaster City Council dealing with the special issues associated with the Arnsdale Silverdale Area of Outstanding Natural Beauty.
- 2.20 The Council's [Local Development Scheme](#) (published February 2018) sets out the Council's intention to commence work on a new single Local Plan for the period 2016 to 2036, which is scheduled for adoption in 2021.

Local Housing Need

- 2.21 Following consultation with stakeholders, an updated Strategic Housing Market Assessment (SHMA, October 2017) has been published which sets out a revised full assessment of objectively assessed housing need (FOAN). As this is based on the most up-to-date assessment of demographic and other evidence, the FOAN figure of 290 dwellings per annum (2016-2036) in the published SHMA forms the basis for the calculation of the 5 year housing land position in this report.
- 2.22 The housing target contained within Policy CS6.1 of the Core Strategy is considered to be out of date and therefore not appropriate for the calculation of the local planning authority area's five year housing land requirement.

3. Housing Land Supply Position

Introduction

- 3.1 This section sets out the local planning authority's housing land supply position as at 31 March 2018 in relation to the latest full objectively assessed need for housing in the updated Strategic Housing Market Assessment (SHMA, October 2017) for the period 2016 to 2036.

Long Term Housing Land Supply Position

- 3.2 Table 3 sets out the overall housing land position for the District for the period of the forthcoming single Local Plan, 2016-2036. This is based on an objectively assessed housing (FOAN) need figure of 290 dwellings per annum in the SHMA, October 2017.
- 3.3 The table shows an overall supply of land for **7,216** dwellings to meet a residual requirement of 5,264 dwellings to 2036, when account is taken of existing permissions, sites allocated in the adopted Land Allocations DPD and windfall sites. While this suggests there may be sufficient land for the longer term, it is important to note that updated evidence for the next Local Plan to 2036 will include a review of land supply in a forthcoming Strategic Housing and Economic Land Availability Assessment (SHELAA). Also, the overall supply includes three Broad Locations (totalling 800 dwellings) which will need to be reviewed and formally allocated (if they remain appropriate) in the next Local Plan.

Table 3: Overall Housing Land Supply 2016-2036

a)	Housing Requirement: 1 April 2016 – 31 March 2036 (20 years x 290 dwellings)	5,800
b)	Net Completions: 1 April 2016 – 31 March 2018 (2 years)*	536
c)	Residual Requirement (a - b)	5264
d)	Housing Supply, comprising:	
	Large Site Planning Permissions at March 2018 (Under Construction)**	315
	Large Site Planning Permissions at March 2018 (Not Started)**	832
	Sites approved subject to S106	646
	Small Site Planning Permissions at March 2018**	444
	Unconsented Land Allocations***	2729
	Broad Locations	800
	Additional Windfall Allowance 2018-23****	306
	Additional Small Site Windfall Estimate 2023-2036*****	1144
	Total Land Supply Position:	7216
e)	Overall Housing Land Supply Surplus (d – c)	1952

Notes:

* see Appendix 2 for data on housing completions.

** see Appendix 1 for data on extant planning permissions at 31 March 2018.

- *** see Table 12 in Appendix 1 for list of unconsented land allocations.
 **** see paragraph 3.20 onwards for an explanation of the windfall allowance.
 ***** This comprises projecting forward the annual average small windfall site completions over the period 2013-2018 of 88 units per year over the remaining plan period. It does not include an estimate for large windfall sites that may come forward between 2023 and 2036.

Five Year Land Supply Position

- 3.4 The following assessment of 5 year housing land supply is undertaken in relation to the latest evidence of objectively assessed housing need in the Council's [Strategic Housing Market Assessment](#), or SHMA, (October 2017) of **290 dwellings per annum** for the period 2016 to 2036. This represents the Council's up-to-date position statement on 5 year housing land supply.
- 3.5 The assessment below continues to take account of a 'buffer' of 20% for past under delivery, but this will be kept under review in response to future housing completion rates and the housing delivery test proposals, which indicate that South Lakeland would only need to apply a 10% buffer based on its housing delivery record for the past three years.
- 3.6 Table 4 provides the assessment of the 5 year housing land supply, based on the evidence of deliverability set out in Appendix 1. It shows a supply of 2,805 dwellings on deliverable sites compared to the residual 5 year requirement of 1,793 dwellings, and represents a **7.81 year supply**.

Table 4: 5 Year Land Supply Calculation

<i>Five Year Housing Land Supply Calculation</i>		Calculation	Figure
a)	Housing Requirement 1 April 2016 - 31 March 2036	290 x 20	5800
b)	Target Completions 1 April 2016 - 31 March 2018	290 x 2	580
c)	Net completions 1 April 2016 - 31 March 2018	245+291	536
d)	Current undersupply to date	b - c	44
e)	5 year requirement	290 x 5	1450
f)	5 year requirement + undersupply	e + d	1494
g)	5 year requirement + 20%	f x 1.2	1793
h)	Annualised requirement over next 5 years	g / 5	359
i)	Deliverable land supply: <i>Sites 10+ under construction (315 units)</i> <i>Sites 10+ with full permission (404 units)</i> <i>Sites 10+ with outline permission (82 units)</i> <i>Deliverable S106 Sites (445 units)</i> <i>Small permitted sites <10 units (389 units)</i> <i>Additional windfall allowance (306 units)</i> <i>Unconsented deliverable allocations (864 units)</i>		2805
j)	Land supply in years	i / h	7.81

Sources of Land Supply

- 3.7 The assessment of the 5 year supply in this Housing Position Statement is considered to be realistic and robust. The main elements which comprise the 5 year supply and the key assumptions used are set out below. This assessment is informed by engagement with developers, agents and landowners in early 2018 in the form of a survey (see Appendix 5) and follow up correspondence. This survey is undertaken on an annual basis to inform the Council's land supply position.

Sites with Permission

- 3.8 Sites with planning permission (both dwellings not started and those under construction) are set out in Appendix 1. The record of progress on development sites is based mainly on building control records, which monitor the start and completion of dwellings. In some cases there is a delay between the actual completion of a dwelling and the issuing of a completion notice by building control. In a few cases information on completions is based on site visits or other up-to-date information such as Council Tax registrations. The housing completions and planning permissions in the report are net figures to take account of (for example) the conversion, redevelopment or demolition of existing dwellings.

Large Sites

- 3.9 An individual assessment has been undertaken of large sites (10 or more dwellings) with planning permission (including sites that are already under construction). Together, at 31 March 2018, these provide a supply of 1131 outstanding dwellings (net).
- 3.10 In most cases the assessment of deliverability is based on the judgment of planning officers in conjunction with information provided by owners, developers or agents. Table 12 in Appendix 1 sets out the evidence and judgments regarding their suitability, availability and achievability. This assessment has concluded that **801 dwellings** (71% of units) on large permitted sites are considered deliverable within 5 years.

Large Sites approved subject to Section 106 agreements being finalised

- 3.11 The assessment also includes a number of large sites that have been approved subject to the finalisation of their Section 106 agreements. These sites provide an overall supply of 646 outstanding units at 31 March 2018. The deliverability of each of these sites has been assessed based on information provided by landowners, developers, agents and planning officers (see Appendix 1 Table 12). This assessment has concluded that **445 dwellings** (69% of units) on large sites approved subject to Section 106 agreements are considered deliverable within 5 years.

Small Sites with Permission

- 3.12 The remaining supply of small sites (less than 10 units) with planning permission at 31 March 2018 comprises land for 444 net dwellings (484 gross) on 303 small sites. 39% of units (188 (gross)) are under construction and 61% of units (296 (gross)) have not yet commenced.
- 3.13 Small site permissions make up 28% of the total dwellings with planning permission. The Council has insufficient resources to assess the individual deliverability of each of these sites separately and therefore applies assumptions as set out below.
- 3.14 The NPPF states: "Sites with planning permission should be considered deliverable until permission expires, unless there is clear evidence that schemes will not be implemented within five years, for example they will not be viable, there is no longer a demand for the type of units or sites have long term phasing plans".

- 3.15 A non-completion adjustment of 80% has however been applied to the ‘not-started’ dwellings on small sites. It is therefore estimated that **389 dwellings** are deliverable on small sites within 5 years, which is considered a conservative estimate. The calculation is shown below:

Table 5: Small permitted sites calculation

	<i>Apply % of NS and UC to net figure:</i>		<i>Apply 20% discount to NS:</i>	Small Sites 5 Year Supply
Net units under construction (UC)	444 x 39%	172		172
Net units not started (NS)	444 x 61%	272	271.5 x 80%	217
Total		444		389

Unconsented Land Allocations

- 3.16 Sites allocated in the Land Allocations DPD are listed in policy LA1.3 of the DPD along with other site specific policies, including a number of mixed use allocations. Having taken into account permitted and completed allocation sites, the total remaining capacity of unconsented allocated sites is 2,729 units.
- 3.17 The remaining unconsented residential allocations considered deliverable within 5 years are listed in Table 11 and Table 12 of Appendix 1. These have an estimated capacity of **864 dwellings**. Table 12 provides evidence of each site’s deliverability based on recent engagement with developers, agents and landowners. Further information on the suitability, availability and achievability of these sites can also be found in the Land Allocations DPD and settlement fact files and other evidence base documents which accompanied the DPD at its submission and examination.
- 3.18 It has been assumed that the site capacities estimated in the Land Allocations DPD remain appropriate, and have been used to calculate the future supply from unconsented allocations. This assumption is based on the evidence in Table 6 below that compares the estimated site capacities in the DPD with the number of units that have subsequently been granted planning permission on each site. It demonstrates that the capacity estimates in the DPD have proved to be very accurate, and on the whole, sites have actually generated slightly more units than originally estimated.

Table 6: Capacity of Permitted Allocated Sites

Site and Capacity	Land Allocations DPD (estimated units)	Planning Permission (units)	Permitted capacity as % of estimated capacity
Croftlands West (Nook Farm), Ulverston (subject to S106)	309	330	107%
Gascow Farm, Ulverston (subject to S106)	219	235	107%
Land West of Oxenholme Road, Kendal	100	148	148%
South of Lumley Road, Kendal	122	119	98%
Land North of Sycamore Close, Endmoor (subject to S106)	100	106	106%
Kendal Parks, Kendal	100	105	105%
West End Nurseries, Ulverston (subject to S106)	92	87	95%

Site and Capacity	Land Allocations DPD (estimated units)	Planning Permission (units)	Permitted capacity as % of estimated capacity
Land off Kendal Road, Kirkby Lonsdale	80	78	98%
Land South of Natland Mill Beck Farm, Kendal	73	76	104%
Thornfield Road, Grange over Sands	66	64	97%
Stone Cross Mansion, Ulverston	50	65	130%
Greengate Crescent, Levens	50	49	98%
Carter Road, Grange over Sands	45	42	93%
Land at Higgs Lane, Cartmel (subject to S106)	39	39	100%
Land West of High Garth, Kendal	23	27	117%
East of Hutton Close, Burton in Kendal	31	27	87%
Eskdale House, Kendal	12	25	208%
North of Jack Hill, Allithwaite	27	22	81%
Cedar House School, Kirkby Lonsdale	20	20	100%
East of Burton Road, Oxenholme	24	17	71%
Vicarage Drive, Kendal	13	15	115%
Binfold Croft, Kirkby Lonsdale	9	10	111%
South of Stockbridge Lane, Ulverston	7	7	100%
TOTAL	1611	1712	106%

3.19 The phasing of sites in the DPD is indicative only and reflects factors including constraints at the time of the DPD's preparation and the overall phasing of development over the plan period. A number of sites listed in phase 2 in the DPD are considered in practice to be deliverable within 5 years. In accordance with the positive approach to planning set out in the NPPF, the Council would not seek to restrict sites identified in later phases from being permitted and developed earlier, provided that development constraints are addressed and policy and other requirements met. The list of proposed housing allocations considered deliverable within 5 years takes account of known constraints, including ongoing discussions with United Utilities.

Windfall Allowance

3.20 The NPPF states that an allowance can be made for **windfall sites** in the 5 year supply. It is considered that windfall sites will continue to make a significant contribution to meeting the overall housing needs in South Lakeland, based on recent trends as evidenced below.

Figure 1: Windfall Completions 2003-2018

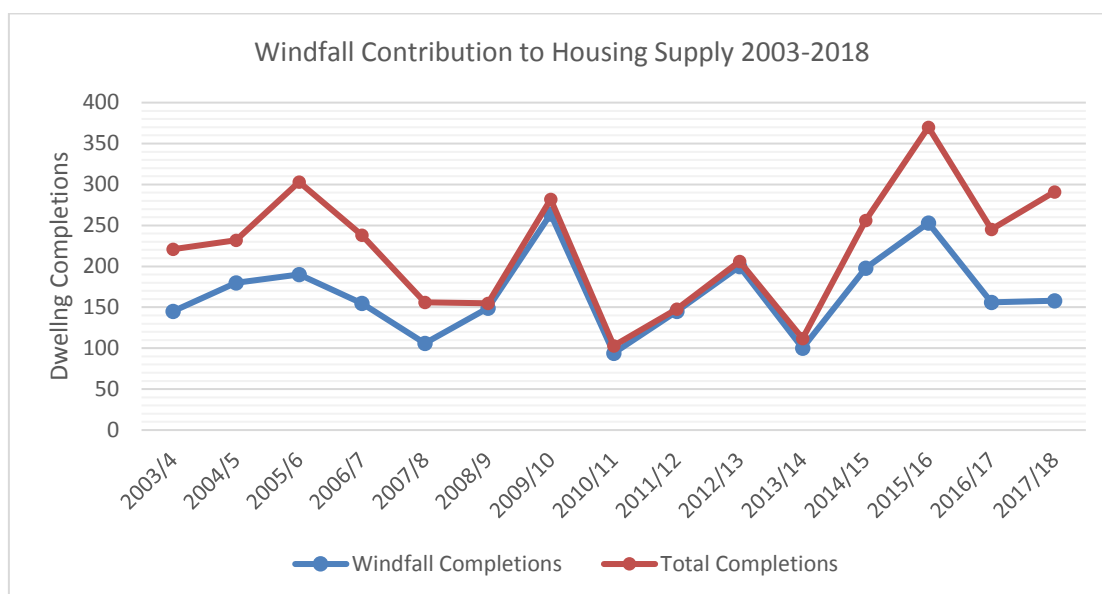

Table 7: Windfall Completions 2003-2018

	Windfall Completions	Total Completions	% Windfall	Five year average
2003/4	145	221	66%	
2004/5	180	232	78%	
2005/6	190	303	63%	155
2006/7	155	238	65%	156
2007/8	106	156	68%	173
2008/9	149	155	96%	154
2009/10	264	282	94%	152
2010/11	94	103	91%	170
2011/12	145	148	98%	161
2012/13	200	206	97%	147
2013/14	100	112	89%	179
2014/15	198	256	77%	181
2015/16	253	370	68%	173
2016/17	156	245	64%	
2017/18	158	291	54%	

3.21 The average rate of housing development from windfall sites over the period 1 April 2013 to 31 March 2018 was 173 units per year, a slight decrease from an average of 181 per year over the preceding five year period. Table 8 below illustrates windfall completions trends on small sites and large sites, and on sites within service centres and in rural areas over the period 2003-2018.

Table 8: Windfall Completions - Site Size and Location

Windfall Sites <10 Units	Windfall Sites >10 units	Year	Total Windfall	Service Centres	Rural
102	43	2003/04	145	83	62
123	57	2004/05	180	114	66

94	64	2017/18	158	121	37

3.22 It is considered the level of windfall sites coming forward is likely to be maintained, for reasons including flexibility in the Core Strategy (policy CS1.2) regarding:

- a) the removal of development boundaries in a number of small villages;
- b) new potential for some housing provision through ‘infilling and rounding off’ in a large number of small villages and hamlets. Trends will continue to be monitored annually and the windfall allowance adjusted accordingly, based on experience;
- c) Recent changes to permitted development rights which reduce the need for planning permission for conversions to residential use;

3.23 Looking ahead, the submitted Development Management Policies DPD policy DM13 proposes a (limited) relaxation of the current approach of ‘infilling and rounding off’ which is likely to increase windfall land supply in rural areas.

3.24 Based on the above evidence, a windfall allowance has therefore been factored into the 5 year land supply, using the five year average for windfall completions on small sites and large sites as a guide. The average annual rate for completions on small windfall sites over the last 5 years has been 88 dwellings and the average annual rate for completions on large windfall sites has been 85 dwellings.

3.25 In considering whether an additional windfall allowance should be factored into the 5 year supply an analysis has been undertaken of the completions that are projected from known windfall sites as follows.

Large windfall sites

3.26 Firstly with regards to large windfall sites a total of 118 units from known permitted large windfall sites are included in the 5 year supply, 75 units in the first year and 52 units in the second year. Given recent trends an average of 85 windfall completions per year would be expected on large windfall sites. It is therefore considered robust and justified to apply an additional windfall ‘top-up’ for large sites in years 3 to 5 as set out below.

Table 9: Large Sites Windfall Projections

	2018/19	2019/20	2020/21	2021/22	2022/23	Total
Large permitted windfall sites projected completions	75	52	0	0	0	118
Proposed additional windfall allowance to 'top-up' to past completions rates	0	0	85	85	85	255
<i>Total large site windfall in 5 year supply</i>	<i>75</i>	<i>52</i>	<i>85</i>	<i>85</i>	<i>85</i>	<i>373</i>

Small windfall sites

3.27 With regards to known small site permissions, of which almost all (99%) are windfall, 389 units are projected to be delivered (see paragraphs 3.12 to 3.15) over the next 5 year period (79 units in years 1 and 2 and 77 units per annum in years 3 to 5). Taking into account the average completion rate for small site windfall over the last five years of 88 dwellings per year, it is considered appropriate to apply an additional windfall allowance for small sites to 'top up' projected completions to align with past trends.

Table 10: Small Sites Windfall Projections

	2018/19	2019/20	2020/21	2021/22	2022/23	Total
Small permitted windfall sites projected completions	79	79	77	77	77	389
Proposed additional windfall allowance to 'top-up' to past completions rate	9	9	11	11	11	51
<i>Total small site windfall in 5 year supply</i>	<i>88</i>	<i>88</i>	<i>88</i>	<i>88</i>	<i>88</i>	<i>440</i>

3.28 These assumptions will be kept under review and may be adjusted to take account of further information, future trends, analysis and feedback.

APPENDIX 2: Housing Delivery Record

Housing Delivery Record – Summary Tables

This appendix sets out the housing delivery record for South Lakeland District Council local planning authority area.

Note: Figures provided in grey italics refer to the previous plan period 2003-2016 covered by the Core Strategy target of 400 dwellings per year, and are shown for historic information purposes.

KEY	
PSC =	Principal Service Centre
KSC =	Key Service Centre
LSC =	Local Service Centre
Rural =	Other smaller villages, hamlets and the wider rural area
HMA – Housing Market Area	
K -	Kendal
F –	Furness Peninsula
C –	Cartmel Peninsula
RK –	Rural Kendal
WIND - Windfall	
ALLOC - Allocation	
Brown – Brownfield (Previously developed land) development	
Green – Greenfield development	

Table 17: Proposed Housing Delivery Test Calculation

Year	Requirement	Net completions	Annual delivery %	3 year delivery %
2015/16	400	370	93%	92%
2016/17	290	245	84%	
2017/18	290	291	100%	
3 Year Total	980	906	92.4%

APPENDIX 3: Summary of Assumptions

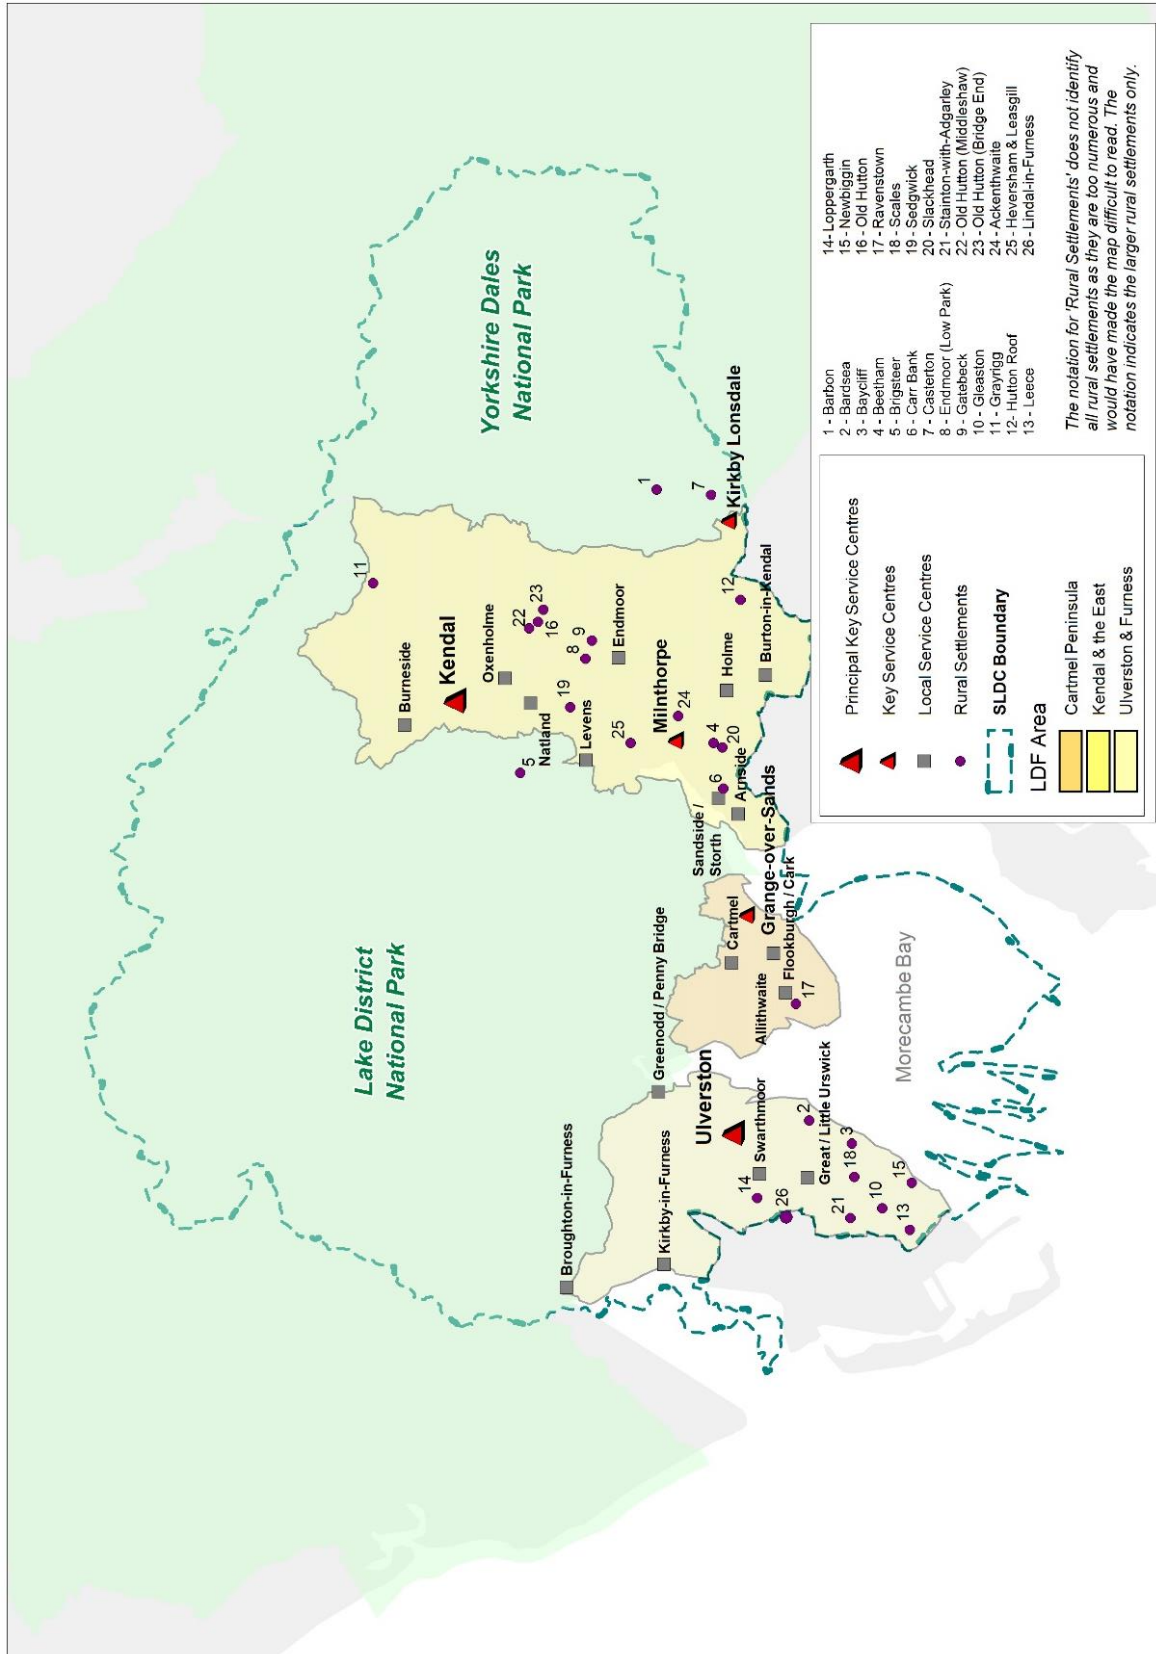

As suggested in the draft planning practice guidance, the annual position statement includes a clear and transparent table of assumptions that are kept under regular review.

Table 24: Summary of Assumptions used in Annual Position Statement

Assumption	
Implementation rates on permissions	<p>For large sites over 10 units, each site is individually assessed based on information from developers and landowners.</p> <p>For small site permissions a discount of 20% is applied to the total number of units on 'not started' sites.</p>
Lead in times	<p>Taken from Land Allocations DPD (page 18):</p> <p>Up to 1 year for design stage and relevant consents for sites less than 40 units.</p> <p>Up to 2 years for design and consents on sites of more than 40 dwellings.</p>
Build rates	<p>30 dwellings per year is assumed for estate housing, unless alternative build rates are provided by developers.</p>
Older people's housing	<p>PPG (ID: 3-037-20150320) notes that local planning authorities should count housing provided for older people, including residential institutions in Use Class C2, against their housing requirement.</p> <p>In South Lakeland completions in residential and nursing homes are taken into account on a ratio of 5 bedrooms to 1 dwelling on the basis that such schemes for older people will free up under-occupied local housing for other people. Extra care units are counted as single dwellings as they are self-contained dwellings with their own front door.</p>
Windfall allowance	<p>Divided into a large site and small site allowance. Both allowances are based on average windfall completion rates over the preceding five years, and then known windfall permissions are deducted from the allowance to avoid double counting.</p>

Dear ,

Housing Land Supply in South Lakeland – Request for Information

As part of its ongoing monitoring of the supply of housing land in the district, South Lakeland District Council is undertaking its annual exercise of contacting owners/agents/developers of sites allocated for development in the Local Plan, as well as unallocated sites of 10 or more dwellings that have been granted planning permission.

The purpose of this exercise is to collect information on development intentions including timescales, likely build-out rates and any barriers that are delaying sites from coming forward. This information will assist the Council in building a robust picture of housing land supply in the district. It will also help inform the preparation of the new Local Plan by providing information on deliverability which will help determine whether undeveloped allocations should be reviewed. It should be noted that up to date evidence of sites' availability and deliverability will be essential in considering whether to carry forward existing allocations into the new Local Plan.

We understand from our records that you have an interest in the site <SITE NAME>, <SETTLEMENT>. If this is incorrect and you no longer have an interest in the site, please let us know and if possible provide updated contact details.

We would be most grateful if you could check (and if necessary amend) the information on the enclosed form and fill in the remaining sections and return it to us (via email or post) by 22nd March 2018. If you have any queries regarding this request for information or would like to discuss your site with a Council Officer please do not hesitate to contact the Development Plans team at development.plans@southlakeland.gov.uk or on 01539 793388.

We look forward to hearing from you,

Alastair McNeill
Development Plans Manager

SITE INFORMATION SHEET

Site Name:	
Local Plan Allocation Policy Reference: (If applicable) The Land Allocations DPD can be viewed on our website.	
Planning Application Reference: (If applicable)	
Site Progress:	
Developer/Agent Details: (If applicable)	
Is the site still available? (Please confirm ownership, whether site is being actively marketed etc.)	
When is development on the site likely to commence? (If the site does not yet have planning permission please indicate when you intend to submit an application)	
How long will the development take to complete? (Please include overall timescale and estimated number of units per year)	

<p>Are there any current barriers delaying/preventing development of the site?</p>	
<p>Any other comments or useful information?</p>	
<p>Please confirm your contact details so we can ensure our records are up-to-date.</p> <p>(Please provide your name, address, email and telephone no)</p>	
<p>If you no longer have an interest in this site, please indicate here.</p> <p>(It would be helpful if you could supply details of those with a known interest in the site so that we can contact them regarding this matter)</p>
