1. Introduction

- 1.1 This document comprises the 2015 Housing Land Position Report for South Lakeland district outside the National Parks. It forms an update of the March 2014 Housing Land Position Report, to a base date of **31 March 2015**. It provides an assessment of housing land supply against the requirements in the South Lakeland Core Strategy (adopted October 2010) and also assesses the 5-year housing land supply position. It takes into account the allocation of sites in the Land Allocations DPD, adopted in December 2013. The National Planning Policy Framework, published on 27 March 2012, indicates that the 5-year supply should include an additional 5% or 20% to ensure competition and choice in the market for land.
- 1.2 The information in the report assists the Council in managing the housing land supply; and in particular in:
- the housing land requirements and provision in the **South Lakeland Local Plan**;
 - assessing if there is enough deliverable housing land to meet the **5-year housing land requirement**;
 - preparing the **Annual Monitoring Report**, which requires a housing trajectory of past and expected rates of housing completions.

This report monitors housing sites granted planning permission, development progress on sites and the deliverability of sites in relation to the 5-year housing land supply requirement, taking account of constraints as well as landowners' and developers' intentions, where known. It also takes account of on-going discussions with United Utilities on those allocated sites considered deliverable within 5 years.

- 1.3 The Annual Monitoring Reports contain further information on a range of wider housing.
<http://www.southlakeland.gov.uk/building-and-planning/south-lakeland-local-plan/evidence-studies-and-reports/annual-monitoring-reports>
- 1.4 The information in this report is based on data from the Council's *Fast Planning* and *Fast Control* databases.

2. Policy Context

	National Planning Policy Framework (NPPF)
2.1	<p>The National Planning Policy Framework (NPPF) published on 27 March 2012 states in relation to housing supply that :</p> <p><i>“47. To boost significantly the supply of housing, local planning authorities should:</i></p> <ul style="list-style-type: none"> <i>• use their evidence base to ensure that their Local Plan meets the full, objectively assessed needs for market and affordable housing in the housing market area, as far as is consistent with the policies set out in this Framework, including identifying key sites which are critical to the delivery of the housing strategy over the plan period;</i> <i>• identify and update annually a supply of specific deliverable⁽¹¹⁾ sites sufficient to provide five years’ worth of housing against their housing requirements with an additional buffer of 5% (moved forward from later in the plan period) to ensure choice and competition in the market for land. Where there has been a record of persistent under delivery of housing, local planning authorities should increase the buffer to 20% (moved forward from later in the plan period) to provide a realistic prospect of achieving the planned supply and to ensure choice and competition in the market for land</i> <i>• identify a supply of specific, developable⁽¹²⁾ sites or broad locations for growth, for years 6-10 and, where possible, for years 11-15;</i> <i>• for market and affordable housing, illustrate the expected rate of housing delivery through a housing trajectory for the plan period and set out a housing implementation strategy for the full range of housing describing how they will maintain delivery of a five-year supply of housing land to meet their housing target; and</i> <i>• set out their own approach to housing density to reflect local circumstances.</i> <p><i>48. Local planning authorities may make an allowance for windfall sites in the five-year supply if they have compelling evidence that such sites have consistently become available in the local area and will continue to provide a reliable source of supply. Any allowance should be realistic having regard to the Strategic Housing Land Availability Assessment, historic windfall delivery rates and expected future trends, and should not include residential gardens”</i></p> <p><u>Footnotes</u></p> <p>¹¹ <i>To be considered deliverable, sites should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years and in particular that development of the site is viable. Sites with planning permission should be considered deliverable until permission expires, unless there is clear evidence that schemes will not be implemented within five years, for example they will not be viable, there is no longer a demand for the type of units or sites have long term phasing plans.</i></p> <p>¹² <i>To be considered developable, sites should be in a suitable location for housing development and there should be a reasonable prospect that the site is available and could be viably developed at the point envisaged”.</i></p>

	South Lakeland Local Plan
2.3	<p>The adopted Core Strategy and Land Allocations DPD comprise the main parts of 'Local Plan' for South Lakeland outside the National Parks, together with a number of saved 'old' Local Plan policies. The Council's Local Development Scheme, as revised in June 2015 (see link below), sets out the intention to:</p> <ul style="list-style-type: none"> • prepare a Development Management Policies DPD by August 2017 – work on this is now underway. • and then to commence preparation of a single replacement Local Plan to be in adopted by March 2021. <p>http://www.southlakeland.gov.uk/building-and-planning/south-lakeland-local-plan/local-development-scheme/</p>
2.4	<p><u>Core Strategy</u>: The Core Strategy sets out overarching planning policy for the district, including the amount and distribution of housing required to 2025 between the district's principal, key and local service centres and also in small villages, hamlets and open countryside. The Core Strategy was adopted on 20 October 2010</p>
2.5	<p><u>Land Allocations DPD</u>: The Land Allocations document was adopted in December 2013 and allocates sufficient sites to meet the level and distribution of housing land in the Core Strategy. The Inspector, in his report, confirmed the adequacy of housing land provision in relation to the overall plan and also the 5-year supply.</p> <p>http://applications.southlakeland.gov.uk/documentbrowser/DocumentBrowserFiles/local%20plan/land%20allocations/00%20Adoption/02%20Inspector's%20Report_14.11.13.pdf</p>

3. Overall Housing Land Position

3.1 This section sets the overall housing land supply position as at March 2015 in relation to the Core Strategy, which sets an annualised housing requirement of 400 dwellings completed each year from April 2003 to April 2025.

Table 3.1

Overall Housing Land Supply, 2003 – 2025

a	Housing Requirement: 1 April 2003 – 31 March 2025 (22 years x 400)	8800
b	Net Completions: 1 April 2003 – 31 March 2015 (12 years) *1	2412
c	Residual Requirement	6388
d	Housing Supply <ul style="list-style-type: none"> • Planning Permissions at March 2015 – not started *2 • Planning Permissions at March 2015 – under construction *2 • Proposed Allocations *3 • SHLAA small sites *4 • Windfall – Small villages, Hamlets and Open Countryside*4 • Windfall – Principal, Key and Local Service Centres *4 	7321 669 664 4802 285 357 544
e	Overall Housing Land Supply Position (d – c)	933

*1 – see Appendix 2 for data on housing completions, 1 April 2003 to 31 March 2015

*2 – see Appendix 3 for data on extant planning permissions at 31 March 2015.

*3 – see Table 1B of the Land Allocations DPD taking account of allocated sites which received planning permission by 31 March 2015 – see paragraph 3.7 below.

*4 – see Section 4.4 below and also paragraphs 3.5 and 3.6.

3.2 Table 3.1 sets out the housing land position for the District for the whole plan period to March 2025. It shows an **over-supply of land for 933 dwellings** to meet the residual requirement of 6,388 dwellings to 2025, when account is taken of existing permissions, sites allocated in the adopted Land Allocations DPD and an allowance for sites in the Strategic Housing Land Availability Assessment (SHLAA) and windfall sites.

3.3 As noted in paragraph 2.1 above, the NPPF states that that local planning authorities should, in summary:

- Identify and update annually a supply of specific, **deliverable sites** to deliver housing in the first 5 years.
- Identify a supply of specific, **developable sites** or **broad locations** for growth for years 6–10 and, where possible, for years 11–15.

Those allocated sites considered deliverable within 5 years are considered in section 4 below, and as set out in Appendix 4. The supply of developable sites and broad locations within the remainder of the plan period are as identified in the Land Allocations DPD.

- 3.4 Sites with **outstanding planning permission** (both dwellings not started and those under construction) are set out in Appendix 3. The record of progress on development is based on Building Control records, which monitor the start and completion of dwellings. In some cases there is a delay between the actual completion of a dwelling and the issuing of a completion notice by Building Control. No specific provision is made for demolitions, as there are no housing clearance areas in the district. The housing completions and planning permissions in the report are net figures to take account of (for example) the conversion or redevelopment of existing dwellings.
- 3.5 The NPPF states that an allowance can be made for **windfall sites** in the 5-year supply. It is considered that windfall sites will continue to make a significant contribution to meeting the overall requirement, based on the current and past trends, summarised below. A windfall allowance therefore forms part of the housing land supply, as set out in detail in section 4.4. It may be noted that:
- 77% of housing land available with planning permission at 31 March 2015 comprised windfall sites - see Appendix 3;
 - 80% (1,926 dwellings) of the 2,412 (net) dwellings completed between 1 April 2003 and 31 March 2015 were on windfall sites - see Appendix 2;
 - The average rate of housing development from windfall sites over the 5 years from 1 April 2010 and 31 March 2015 was 147 dwellings per year.
- 3.6 The following assumptions have been made in relation to the SHLAA and windfall figures:
- All small SHLAA sites have been taken into account
 - The windfall assumption for service centres relates to a 5-year period only and is considered therefore to be a conservative estimate.
- 3.7 Sites **allocated in the Land Allocations DPD** are listed in policy LA1.3 and other site specific policies. Those allocated sites which received planning permission by 31 March 2015 are listed in the table below. Together these reduce the total estimated capacity of the remaining allocated sites by 475 dwellings, from 5,277 to **4,802** dwellings.

Site	Site Capacity based on	
	Land Allocations DPD	Planning Permission
Land South of Natland Mill Beck Farm, Kendal	73	76
Land West of High Garth, Kendal	23	27
Land West of Oxenholme Road, Kendal	100	148
Binfold Croft, Kirkby Lonsdale	9	10
Berners, Grange over Sands	43 (out of total of 103)	43
South of Stockbridge Lane, Ulverston	7	7
Vicarage Drive, Kendal	13	15
Carter Road, Grange over Sands	45	42
Eskdale House, Kendal	12	25
Kendal Parks, Kendal	100	105
Greengate Crescent, Levens	50	89
TOTAL	475	587

4. The 5-Year Housing Land Supply

- 4.1 To help boost significantly the supply of housing land, the NPPF states that local planning authorities should identify and update annually a supply of specific, deliverable sites to deliver housing in the first 5 years. NPPF policy guidance in relation to the 5-year supply is set out in paragraph 2.1 above. The assessment below continues to take account of a 'buffer' of 20%, although this will be kept under review if increased housing completion rates are maintained.
- 4.2 Table 4.1 provides the assessment of the 5-year land supply, based on the evidence set out in Appendix 1. It shows a supply of 4,521 dwellings on deliverable sites compared to the residual 5-year requirement of 3,194 dwellings, and represents a **5.9 year supply**.

Table 4.1

5-year Housing Land Supply, 2014–2019

a	Housing Requirement: 1 April 2003 – 31 March 2025 (22 years x 400)	8800
b	Net Completions: 1 April 2003 - 31 March 2015 (12 years) *1	2412
c	Residual Requirement	6388
d	Annual Requirement (6388 / 10 years)	639
e	5-year requirement	3194
f	5-year requirement plus 20%	3833 (767pa)
g	5-Year Supply of <u>Deliverable Sites</u> *2 <ul style="list-style-type: none"> o Large permitted sites o Small permitted sites o Land Allocations o Small sites / SHLAA o Windfall – Principal, Key & Local Service Centres o Windfall - Small villages, hamlets and open countryside 	4521 (674) (554) (2340) (285) (524) (143)
h	5- Year Land Supply Position at 1 April 2015 - (g / f)	5.9 year supply

*1 – see Appendix 2 for data on housing completions, 1 April 2003 to 31 March 2015

*2 – See Appendices 1 and 4

- 4.3 The **requirement** takes account of net dwelling completions from April 2003 to March 2015, and divides the residual requirement by the remaining years of the plan period to 2025. A conservative position is adopted in relation to NPPF guidance in adding 20% to the 5-year requirement. The **supply** of deliverable sites is set out in:
- Appendix 1 which sets out anticipated housing completions following an assessment of the deliverability of sites with 10 or more dwellings outstanding at 31 March 2015.
 - Appendix 4 which lists the allocated housing sites (or proportions of sites) in the adopted Land Allocations DPD considered deliverable within 5 years.

4.4 The assessment of the 5-year supply in this Housing Position Statement is considered to be realistic and robust. The main elements which comprise the 5-year supply and key assumptions are set out below:

- **Large Sites with Permission:** An individual assessment has been undertaken of large sites with planning permission, which had 10 or more units. Together, at 31 March 2015, these make up 702 dwellings or 53% of all permitted dwellings (1,333 units) with planning permission. In most cases the assessment is based on the judgment of planning officers in conjunction with any information available from owners, developers or agents. Appendix 1 (Table 2) sets out the evidence and judgments regarding the deliverability of the committed sites which form part of the 5-year housing land supply, in relation to their suitability, availability and achievability. **674 dwellings** on large permitted sites are considered deliverable within 5 years.
- **Small Sites with Permission:** The remaining supply of sites with planning permission at 31 March 2015 comprises land for 631 dwellings on 375 small sites of less than 10 units. These make up 47% of dwellings with planning permission. The Council has insufficient resources to assess this number of small sites individually. The NPPF states: “Sites with planning permission should be considered deliverable until permission expires, unless there is clear evidence that schemes will not be implemented within five years, for example they will not be viable, there is no longer a demand for the type of units or sites have long term phasing plans”. However, a non-completion adjustment of 80% has been applied to ‘not-started’ dwellings on small sites. It is therefore estimated that **554 dwellings** are deliverable on small sites, which is considered a conservative estimate.
- **Sites allocated or proposed for allocation:**
Land Allocations DPD: The housing site allocations considered deliverable within 5 years are listed in Appendix 4. These have an estimated capacity of **2340 dwellings**. Further Information on the suitability, availability and achievability of these sites is set out in the Land Allocations DPD and settlement Fact Files and other evidence base documents which accompanied the DPD at its submission and examination. The sites include mainly those in phase 1 in the DPD but also some additional sites in phase 2.
 The phasing of sites in the DPD is indicative only and reflects factors including site constraints and the overall phasing of development over the plan period as set out in the Core Strategy. A number of sites listed in phase 2 in the DPD (*in part to indicate a desirable spread of development over the plan period*) are considered in practice to be deliverable within 5 years. In accordance with the positive approach to planning set out in the NPPF, the Council would not seek to restrict sites identified in later phases from being permitted and developed earlier, provided that development constraints are addressed and policy and other requirements met. The list of proposed housing allocations considered deliverable within 5 years in Appendix 4 takes account of known constraints, including on-going discussions with United Utilities.

- **Small sites identified in the SHLAA study** (March 2009) below the Land Allocations site size threshold of 0.3ha are included as part of the overall windfall allowance and comprise 356 units, as checked at 31/3/15. To this figure, we have then:
 - Applied again a non-completion adjustment of 80% (**285 units**);
 - Discounted the resulting 285 units from the wider windfall allowance for service centres and small villages, hamlets and open countryside as set out below, to avoid any double counting.
- **Windfall Allowance** - A high proportion of residential permissions and completions in the district are windfall, as evidenced in Appendix 2 below and summarised in paragraph 3.4 above. It is considered the level of windfall sites coming forward is likely to be maintained, for reasons including new flexibility in the Core Strategy (policy CS1.2) regarding:
 - the removal of development boundaries in a number of small villages;
 - new potential for some housing provision through 'infilling and rounding off' in a large number of small villages and hamlets. Trends will continue to be monitored annually and the windfall allowance adjusted accordingly, based on experience.
 - Recent changes to permitted development rights which reduce the need for planning permission for conversions to residential use.

The windfall assumption comprises two elements – one for Small Villages, Hamlets and Open Countryside and one for Principal, Key and Local Service Centres.

Small Villages, Hamlets and Open Countryside The Land Allocations DPD at 31 March 2013 included an allowance (491 dwellings) for windfall in small villages and hamlets and open countryside. Taking account of completions and permissions by 31 March 2015, this figure has reduced to an outstanding need for 357 dwellings to be provided from windfall sites. Over a 5-year period this amounts to 179 dwellings. When an 80% completion rate is applied, this amounts to **143** dwellings. This is equivalent to about 29 dwellings per annum. Dwelling completions in this tier of settlement increased from 17 dwellings in 2013/14 to 25 in 2014/15.

Principal, Key and Local Service Centres The windfall allowance in the 5-year supply to 2020 in service centres is based on evidence of windfall permissions in the preceding 5 years and (as advised in the NPPF) also taking account of SHLAA and the exclusion of garden sites.

Between 2010 and 2015, a total of 997 dwellings were permitted on windfall sites in service centres. Using this as a basis for future trends, we have applied to this figure:

- a reduction of 4% (to 957 units) to take account of garden sites, based on an analysis of extant permissions in the Housing Land Position Report 31 March 2012;
- a non-completion adjustment of 80% (to 766 units) in accordance with the approach to small sites with permission which have not started;

- a deduction of identified small sites in SHLAA (241 units within service centres) to avoid double counting, which results in a windfall allowance of **524** dwellings.

These assumptions will be kept under review and may be adjusted to take account of further information, analysis and feedback.

5. Conclusions

- 5.1 The 2015 Housing Land Position Report assesses the supply of housing land available in South Lakeland at 31 March 2015 to meet the housing requirement of the Core Strategy. In particular the report assesses whether there is a 5-year supply of deliverable housing sites as required in the National Planning Policy Framework.
- 5.2 Of particular note is the increase in housing completions in 2014/5 to 256 dwellings from 112 in the previous year. The report (at Table 4.1) demonstrates that there is a **5.9 year supply** of deliverable sites to meet the 5-year supply requirement (with 20% buffer).

Figure 2 – South Lakeland Local Plan Area and Settlements

APPENDIX 1 Assessment of the 5-Year Supply

TOTAL	4644	1027	1045	847	817	803	4550

The Housing Land Availability Schedule in Appendix 3 is based on Building Control records as at 31 March 2015. Some dwellings that are recorded as under construction at this date may have reached practical completion, but not yet been issued with completion notices.

Sites with less than 10 units outstanding at 31 March 2015 will include some large sites with less than 10 units remaining to be completed.

Table 2 - Assessment of Deliverability of Sites Comprising 5-Year Supply

(For the trajectory of estimated rates of completion see Table 1)

Housing Sites	Assessment (and Evidence) of Deliverability		
	Available?	Suitable?	Achievable?
A - Planning Permissions			
1) Sites of 10+ dwellings outstanding at 31 March 2015			
Land to West of Oxenholme Road, Kendal (148) App No. SL/2012/0566	Yes	Yes	Yes
	The site has outline approval and a detailed application has been submitted for a first phase. It is considered the majority of the site can be delivered within 5 years.		
North East Sandylands, Kendal (94) App No. SL/2005/0976 Outline SL/2007/1354	Yes	Yes	Yes
	Construction of the site is well advanced. 50% of the scheme will comprise affordable houses and 50% local occupancy houses.		
Auction Mart, Kendal (94) App No. SL/2010/1015	Yes	Yes	Yes
	Construction of the site is well advanced The includes a S106 agreement for 50% affordable dwellings.		
Land to south of Natland Mill Beck Farm, Kendal (76) App No. SL/2013/0830	Yes	Yes	Yes
	Construction of the site is well advanced. About 35% of units are being affordable.		
K Village, Kendal (58 units) App No. SL/2005/0619	Yes	Yes	Yes
	The retail element of the site has been completed some time ago. The 90 residential units on site have also been complete in practical terms for some time, but completion notices are awaited for a number of the units.		
Land adjacent to Berners Close, Grange (43) App No. SL/2013/0887	Yes	Yes	Yes
	This 43 unit affordable scheme is now nearing completion.		
Land at Hallgarth Cottage, Windermere Road, Kendal (27) App No. SL/2013/0075	Yes	Yes	Yes
	This 100% affordable scheme is now practically complete.		
Burton Road, Kendal (24) SL/2008/0790	Yes	Yes	Yes
	This 'close care' development is complete in practical terms. It provides retirement housing with the option of additional care if and when required and is therefore taken into account in terms of housing supply.		
Oaklands, Ulverston (25) App No. SL/2010/0806	Yes	Yes	Yes
	The scheme is under construction and nearing completion.		
Gallowbarrow Mill, Natland Road, Kendal (23) App No. SL/2013/0181	Yes	Yes	Yes
	Construction is now well advanced. .		
Cock & Dolphin, Kendal	Yes	Yes	Yes

Housing Sites	Assessment (and Evidence) of Deliverability		
	Available?	Suitable?	Achievable?
App No. SL/2009/1143	This development is largely complete		
Baycliff Farm SL/2008/0852	Yes	Yes	Yes
Binfeld Croft, Kirkby Lonsdale (10) App No. SL/2012/1060	This scheme is nearing completion.		
	Yes	Yes	Yes
Thornfield Road, Grange over Sands (64) SL/2014/1036	Construction of this affordable scheme is well advanced.		
	Yes	Yes	Yes
Carter Road, Grange over Sands(42) SL/2013/0691	The site has permission and is likely expected to start within 1 or 2 years		
	Yes	Yes	Yes
Eskdale House, Shap Road, Kendal (25) CU/2015/0001	Site construction underway – 35% of units are affordable		
	Yes	Yes	Yes
Greenside Farm, Hincaster (18) SL/2013/0594	Site has consent to convert offices to 25 flats		
	Yes	Yes	Yes
Land adjacent to Vicarage Drive, Kendal (15) SL/2014/0506	Site has outline planning permission. A reserved matters application has been submitted.		
	Yes	Yes	Yes
Royal Hotel, Burton in Kendal (15) SL/2010/0695	Site under construction.		
	Yes	Yes	Yes
Fair View, Daltongate, Ulverston (13) SL/2014/0491	Work has not yet commenced		
	Yes	Yes	Yes
Land at Burland Grove, Kendal (14) SL/2014/0392	It is not known when work may start.		
	Yes	Yes	Yes
Green Lane, Flookburgh (12) 5941787	Construction work has commenced.		
	Yes	Yes	Yes
The site is under construction			
2) Small Sites of less than 10 dwellings outstanding at 31 March 2015			
375 sites, 631 units	Yes	Yes	Yes
	There are 631 dwellings on sites of less than 10 units outstanding, together comprising about 47% of all dwellings with planning permission. In view of the number of sites, the Council does not have resources to assess these in detail. A non-completion rate within 5 years of 20% is applied to sites which have not started, reducing the total to 554 dwellings.		
B – Proposed Allocations (Land Allocations DPD)			
5-year supply sites	Yes	Yes	Yes
2340	The 5-year supply includes a proportion of sites allocated in the Land Allocations DPD which are considered to be deliverable. These are listed in Appendix 4. See para 4.4 for detail.		

C – Strategic Housing Land Availability Assessment			
Small Sites (as at 31/3/15)	Yes	Yes	Yes
	There are 356 units identified by the SHLAA study at 31 March 15 that are on sites below the threshold for consideration in the Land Allocations DPD. The SHLAA was unable to assess in detail the availability and achievability of all sites but was able to make a judgement on the basis of known information. A partial review of these sites has removed any with a current planning permission for residential development. It should be noted that the remaining sites have no planning status and it is likely that not all sites would be developed. A non-completion rate of 80% was applied to take account of additional factors that may arise at planning application stage and estimated build out rates, reducing the total to 285 units.		
D – Windfall (additional to SHLAA)			
Windfall (as at 31/3/15)	Yes	Yes	Yes
	The assessment of an estimated contribution to housing supply from windfall sites is set out in paragraph 4.4 of this report.

Abbreviations used

PSC – Principal Service Centre

KSC – Key Service Centre

LSC – Local Service Centre

Rural – Other smaller settlements and wider rural area

HMA – Housing Market Area

K - Kendal

F – Furness Peninsula

C – Cartmel Peninsula

RK – Rural Kendal

WIND - Windfall

ALLOC - Allocation

Brown – Brown field (Previously developed land) development

Green – Green field development

APPENDIX 3 Housing Land Availability Schedule – March 2015

Summary of Housing Land Available at 31 March 2015

Dwellings	TOTAL	PSC	KSC	LSC	Rural
Under Construction	664	413	129	39	83
Not Started	669	270	98	50	116
Total Outstanding	1333	683	227	89	199

Dwellings	TOTAL	PSC	KSC	LSC	Rural
Brown field	611 (46%)	372	106	41	95
Green field	722 (54%)	379	146	61	133
Total Outstanding	1333	751	252	102	228

Summary of Housing Land Available with permission, distinguishing between Windfall sites and Sites Allocated in the South Lakeland Local Plan

	Windfall	Allocated	Total
District	1029 (77%)	304 (23%)	1333
PSC	559	192	751
KSC	159	93	252
LSC	90	12	102
Rural	221	7	228

Allocated Sites granted permission within the 2014/2015 monitoring period:

- Vicarage Drive, Kendal – 15 (PSC)
 - Carter Road, Grange over Sands – 42 (KSC)
 - Eskdale House, Kendal – 25 (PSC)
- Total – 82 dwellings
